How to play

1. Cut out or just read: the host holds the clue pages.
2. Teams pick a category and a value; the host reads the clue aloud.
3. Reveal the answer from the same line; award the points and strike the cell on the board page.
4. Nobody got it? Strike the cell, no points — it lands in your drill list.
5. Higher values are harder. The answer key is always right under the clue.
